CONFIDENCE IS THE CATALYST

SUMMARY

When state agencies, school districts, or vendors need quality content, they don't always know how to get there. We can help with any curriculum development or review project!

WHY CHOOSE ECS

The Expert's Experts Our quality is unmatched after 40 years of being "by teachers for teachers."

Continuous Collaboration Our experts partner with your team on idea generation through final delivery.

Proven Methodology Our vision, attention to detail, and history of excellence ensure your project's success.

OUR EXPERTS

ECS maintains a pool of curriculum experts, editors, content writers, and project managers to support its experienced internal team for large-scale and targeted projects. To do this, we developed several key assets:

- Large pool of resources with specializations spanning content areas and grade levels.
- A robust, scalable, and replicable onboarding and training experience.
- An efficient resource identification process for sourcing highly qualified state-specific experts.

OUR STORY

ECS Learning Systems was founded in 1982 by two educators and is dedicated to driving student performance and engagement through research-based planning processes and structures.

ECS has worked directly on Texas' THL and OER projects to ensure that content is standards-aligned and appropriate for Texas students. ECS also develops supplemental learning solutions under the brand STAAR MASTER® to help students in Grades K–12 achieve academic success and master state standards.
